25-27 October 2018 **Singapore**

10th Annual Arbitration Conference

Time to take stock. Is international arbitration heading in the right direction?

Join us in Singapore from 25 to 27 October 2018 to celebrate with AIJA's International Arbitration Commission the tenth anniversary of its Annual Arbitration Conference and engage in a vigorous discussion with practicing lawyers, corporate counsel, and arbitrators from every corner of the world, about the most profound transformations that have taken place in the practice of international arbitration for the past ten years. Look with us as well at the crystal ball and see what will the next 10 years hold for international arbitration. Don't miss out and join the debate led by a stellar and diverse group of forward-looking moderators and panelists on topics such as the new world order heralded by the reform on its rules by the world's leading arbitration institutions, efficiency and costs, third party funding, transparency, the investor-state dispute resolution system, and the role of artificial intelligence and blockchain technology in the future of the practice, as well as other potential areas of innovation and future trends. These discussions will be complemented by an amazing social programme that will bring the very best of the famed AIJA spirit and the multicultural and vibrant city of Singapore.
