## INTERNATIONAL FAMILY WEALTH: PREVENTING EROSION AND ATTACK

We are pleased to announce a Private Client Commission seminar to take place from 14 to 16 April 2011 in Oxford, the City of Dreaming Spires, famous the world over for its University and place in history.

The seminar, entitled “International Family Wealth: Preventing Erosion and Attack” will cover all aspects of wealth protection; including asset protection structures that can be put in place when building wealth; methods of preserving family wealth in relationship breakdown; and preserving family wealth on death. The speakers will highlight and analyse topical trends, particularly relevant in the “credit crunch” era.

The seminar will be held in Corpus Christi College – one of Oxford’s oldest and most beautiful colleges, situated moments from the City Centre and overlooking the Meadows running down to the River Cherwell.

A visit to Oxford would not be complete without the opportunity to enjoy the city’s many sights and to experience its traditions. The Organising Committee has worked hard to line up an exciting social programme including a drinks reception at the Oxford University Museum of Natural History, a gala dinner in the historic Corpus Christi Hall, and the obligatory punting session along the River Cherwell.

With Oxford’s world-renowned museums, galleries, architecture, shops, restaurants, clubs and pubs to choose from, the Committee will ensure you have a great time soaking up the city’s unique character.
