<p>Become a National Reporter! Being a National Reporter means answering the Questionnaire prepared by the General Reporter(s) and possibly contributing to the working session during the Congress. The questionnaires are usually put together in a way that – with some work – answers can be given by young practitioners without necessarily having a lot of experience yet. So be courageous and sign up by either contacting a General Reporter directly or one of the Work Coordinators.</p>	<p>Countries where we are looking for a National Reporter:</p>
